 Salads and desserts present an array of the unusual from green goddess and Cobb Salad, (created by Hollywood Brown Derby owner, Bob Cobb) to strawberry glaze pie and pancake San Francisco.
 In Roy's epilogue he states, "In looking back, I note absence in every recipe of the most important ingredient." He explains two of his dear friends keep an empty shelf in their kitchen for the "bottle of love," and concludes, "love is the most important contribution all of us can make to each other."

Spartans Speak

By Terry Dorn

South High beat Long Beach Jordan last Friday night, 40-12! There was a pep rally before the game during the game, Friday, South will meet El Segundo at their field. Two years ago against El Segundo, South was victorious. Let's hope the Spartans snatch another victory.
 Since we are living under a democracy, ASB Cice pres-

nuals are \$4.50! Get them now. Why pay later?
 THE CROSS country team looks promising this season. Coach Scully, as usual, has planned rigorous workouts for his men. This year South has a good chance to take the Bay League.
 Katie McLung has been appointed by the Student Council to be the Commissioner of Finance. Katie has been vice-president of her class for several semesters and has served on Student Council. Last year she was one of the people who made the prom

on the U. S. S. Kearsarge so successful. Congratulations!
 LAST FRIDAY Boy's and Girl's League had one of the "all-time favorite" activities, Bermuda and Capri day. No girl on campus would dare show up without capris. For the guys it took much courage to bare those legs but they got a lot of laughs!
 Spirit is one of the most important things to a high school. At a football game the feeling is in the air. We all stand when the pep band plays the Fight Song. We all yell when the cheerleaders

New Marina Film Given High Honor

A film promoting the Marina del Rey has won the highest award in one of the nation's top film festivals. Supervisor Burton W. Chace disclosed today.
 The movie was produced by Los Angeles County under the direction of Don Hoster, chief photographer.
 The award is the Crisis Award, given to the top film in the business and industry division of the National Columbus Film Festival. More than 120 films were entered in the competition, most of them produced by large, private corporations.
 Such an award brings credit to the County photography staff which won this prize in competition with private concerns with unlimited budgets and staff," Chace said. "It also helps spread the story of the Marina del Rey."
 The 27-minute film is available to any group interested in the competition, most of them produced by large, private corporations.
 Arrangements may be made by telephoning MA 5-3611, ext. 64138.
